# Getting Stronger

## Adeaze (feat. Aaradhna)

Listen to me I'm feeling afraid
Of something in my life that is wrong
And your trying to tell me that I'm okay
Don't worry because I am strong

I know it gets hard sometimes
but remember that I'm only human
And the things that I face are the same things
that you can help me to overcome

I don't want nobody else
I don't need somebody else to tell me about love
I am strong on my own
But if you think you can tell me
Why the things I'm doing is going wrong
It's just me getting stronger

Well I'm here to tell you that I'm ok
That with or without you I'm the same
But don't get me wrong I'm still waiting for the day
When we can say we went all the way

Life is about all the meaningful things
that we get to share with each other
So leave the past behind in each other
we'll find our love is strong again

I don't want nobody else
I don't need somebody else to tell me about love
I am strong on my own
But if you think you can tell me
Why the things I'm doing is going wrong
It's just me getting stronger

I don't want nobody else
I don't need somebody else to tell me about love
I am strong on my own
But if you think you can tell me
Why the things I'm doing is going wrong
It's just me getting stronger
