# Radiate

## Kristen Hicks

Oh the sky, it radiates your glory
Oh, the sunset shows everything you've
And even when the lights go out
I know you'll still be there for me
Cause even the sun goes down
You leave the moon shining

And I know you'll never leave me
And I know you'll be there with me
Because you keep shining on for me

Oooh, oh
Ooooh. (repeat twice)

And even when its dark
Your light goes on
The moon shows up after the sun
And even when its dark
You keep shining

And I know you'll never leave me
And I know you'll be there with me
Because you keep shining on for me

Oooh, oh
Ooooh. (repeat twice)

You are always shining for me
You are my home, and my love story
Oh will you radiate your glory
Our savior reigns
You are always fighting for me
You set down your love, now I never worry
Oh will you radiate your glory
oh, shine your light.

And I know you'll never leave me
And I know you'll be there with me
Because you keep shining on for me

Oooh, oh
Ooooh. (repeat three times)
