

It Snows in Hell

Lordi

You did the trick
I didn't see it coming
I did not hear a sound Though you were quick
I will not be forgiving You won't be waiting for my return
I promise baby - You'll burn Now it snows in hell
This is the day foretold till death do us part Now it snows in hell
I've gone away but I've got you in my heart
All frozen and scarred Your life goes on
And it's infuriating
How did you not get caught Your deed will spawn
A late beyond your making You won't be waiting for my return
I promise baby - You'll burn And now it snows in hell - We're done masquerading
This is the day foretold till death do us part Now it snows in hell - No you won't be waiting
I've gone away but I've got you in my heart
All frozen and scarred You shouldn't visit me at my grave
My hands will grab you through the dirt
I gweeth - I taketh away
Witness my rebirth from the devils churn Hell - We're done masquerading
This is the day foretold till death do us part Now it snows in hell - No you won't be waiting
I've gone away but I've got you in my heart
All frozen and scarred Hell - We're done masquerading
This is the day foretold till death do us part Now it snows in hell - No you won't be waiting
I've gone away but I've got you in my heart
All frozen and scarred
