

I Saw Them Die

Dismember

No limit, no number too high
To commit the sickest of crimes
Homicidal enjoyment, a frenzied lust to kill
Something they never understood, I crave blood
Incursion, twist of the knife
Internal adjustment, mortal flesh impaled
I saw them die, all empty of their life
I'll be thy master, your sinful messiah
Evil incarnate, pain and pleasure, death defined
No end to my reign of hate
I saw them die, all empty of their life
I saw them die, all empty of their life
I saw them die, all empty of their life
