

# Forever and a Day

[Gary Allan](#)

Well they say nothin' lasts forever honey, I've got news  
Whoever said that never got the blues from you  
This cloud I'm under looks like it's gonna stay  
The thunder's gonna roll forever and a day Well nothing's gonna change the way I think and feel  
My heart it's so heavy and my fate is sealed  
Lord, stop this misery every night I pray  
I'm knowin' that it's there forever and a day Forever and a day you're stuck here in my mind  
Forever and a day is such a long, long time I tell myself again that I just can't swim  
This river of regret that I'm drownin' in  
You've left with this feeling that I just can't shake  
My spirit's gonna sink forever and day Forever and a day you're stuck here in my mind  
Forever and a day is such a long, long time Forever and a day you're stuck here in my mind  
Forever and a day is such a long, long time, time  
Is such a long, long time
