

# The Ride

## Anvil

Climb aboard, we're sailing to this wonderland

Hurry now, take this ride while you can

Come and see inside

You'll be satisfied[Chorus:]

This ride

On this rideBe aware, there'll be some swells along the way

Nightly storms seperate the days of greyFollow rolling tide

Join us on this ride[Chorus] (x2)On and on, then end is always out of reach

That's OK, no hurry to get on the beach

Come and see inside

You'll be satisfied[Chorus] (x2)This ride
