

# Green Heart (1993)

## Absurd

Thuringian plain, deep dark forest  
Evil dwells on there in the woods  
Snowcovered hills, cold winds blowing  
Romantic place, is it understood ?!Evil in the forest in Germany's Green Heart !Hateful savages, strong black  
minds  
Out of the forest, kill the human kind  
Burn the settlements and grow the woods  
Until this romantic place is understood !Animals, beasts, horrend landscape  
Cause there are no signs of human living  
When you look around no human living  
Now this romantic place is understood !
