

Night People (Remastered)

DIO

Do you like the dark
Do you like the way it moves
Do you come alive when neon
Kills the sunAre you hypnotized
Part of the illusion
Oh, see how they runIt's the mystery
Poetry and passion
Innocence and fashion
Revolution
Evolution waysNight peopleAre you satisfied
With the lessons that you're learning
Is the fire really burning
Do you knowHey dream child
Promises are spoken
And promises are broken
Electric eyes that never let you
See them in the dayNight people
Night peopleDo you like the dark
Do you like the way it moves
Do you come alive when neon
Kills the sunshineAre you hypnotized
Innocence and fashion
Promises and passion
Evolution
Revolution ways
And everybody staysNight people
Night people, yeah!Do you like the dark
Do you like the way it moves
Are you hypnotized
Paralyzed
Revolution
Hey dream child
You got electric eyes
Hey dream child!
