For You

The Outfield

I'm so sad, feeling blue
Since you left, I've been missing you
Need your love, oh, so bad
Realize everything we hadAll day, all night
You can have it anyway you want it
One love, so right
Don't you know that I live my life for you?I was wrong, my mistake
I regret, look at the price I paid
Take these words, understand
Try forgiving, I'm a broken manAll day, all night
You can have it anyway you want it
One love, so right
Don't you know that I live my life for you?I'm so sad, feeling blue
Since you left, I've been missing you
Take these words, understand
Try forgiving, I'm a broken manAll day, all night
You can have it anyway you want it
One love, so right
Don't you know that I live my life for you?All day, all night
You can have it anyway you want it
One love, so right
Don't you know that I live my life for you?For you, for you
(You can have it anyway you want it)
For you, for you
(Doesn't matter if the sun don't shine)For you, for you
(You can have it anyway you want it)
For you
(Doesn't matter if the sun don't shine)
