(feat. Dilated Peoples)

[Iriscience]Yo hit the switch in December I'll be gone till November Bombin, disturbin the calm at civic centers
Make a smoothie outta rapper and his ice in my blender
Beyond the fender bender, Dilated, Swollen Members
Independent money makin, no time for waitin
Rakka stimulin, designed for penetratin
Nuttin to prove, air sea and land mover
Crescent Heights, county up north to Vancouver[Prevail]Molecular monitors senses an anaconda that harbors
A feeling for heat and armor and eating a snake charm Capital break, rapid intake of acidic images
Stand up wind I twist the lid off of a silver cylinder
Crash the vehicular, makes a riveting statement
Prior engagement escape this electric encagement
Select edges serrated for the four-blade tango
Enough voltage in my panel to constantly change the channel[Iriscience]

HOOK

Yo I came here to change the whole sound of art
And let em know it all comes down to heart
The mission now is rip the whole town apart
Wit my colleagues, my teammates, my counter parts
Yo I came here to change the whole sound of art
And let em know a new cycle is bound to start
The mission now is rip the whole town apart
Wit my colleagues, my teammates, my counter parts[Evidence]Yo, some pay no mind man, I put time in so play
this
You live on the edge, I live on the San Andreas
In range of, clear and present danger
Can't even trust my shadow, every day it's lookin stranger
In ten years, you'll find me on the low
Full-bearded, Serpico wit flows yo
Coolin in the cut crevice, underground tavern
Wit wifey and seed, still on point like a javelin[Madchild]Madchild twists and turns like an indian burn
With powerful jaws and character flaws
Rippin and tearin wit claws
Kill if I'm aware of the cause
Not to mention, knuckles white from inner tension
Witch doctors and war chiefs approaching
Fantastic adventures, a frightening fortune
Scorpion tail snaps, constrictor strangles
S+M rocks, Dilated works the angles[Iriscience]

HOOK

Yo I came here to change the whole sound of art
And let em know it all comes down to heart

I trust you're rush into an open blade of rust
Hands to ribbons, is in a beatbox of must
Crimson wordplay Prevail, the narrator from the doorway
My partners in this, have gotta be clearly obvious
Known for superior form of smoke inhalation
From spoken incineration
Omens of Damien reignin in present New Haven
Now ain't that amazing?[Evidence]Yo I'm inspired and wired
That time will be attractive
Not tired I've fired volcanoes still are active
Causin drama or terror, it's fabulous

I'll bounce to the arctic with a backpack full of travelers Checks to burn, stay warm for the brain storm
'cause in my snow storm

I freeze if I don't sleep below the ice for my blanket
Thank earth for it's hidden treasures
And now I'm takin drastic measures[Iriscience]

HOOK

Yo I came here to change the whole sound of art
And let em know a new cycle is bound to start
The mission now is rip the whole town apart
Wit my colleagues, my teammates, my counter parts[Madchild]Indulge in this intrusion
Underworld defender

Horrendous snowball of absolute insaneness (feel me)

Riskin freedom to be famous
When nothin remains except passion and pain
No slashin the vein, to bleed and drown in a bath
Fall down and I laugh, get up wipe myself off
and walk down a new path I'm INTACT!
You can't handle the impact

Insync, blazing wit killer instinct[Iriscience]I excel, they all fell

New details, Madchild Prevail

I remove the veil, manifest God self

As the life-giving son, Iriscience brings twelve

Like Buckingham Palace to British Columbia

Three states under ya, I deal wit District of Columbia Understand the numbers and the system that you're under

And why them belly full but the people feelin hunger[Jeru]
