I Am Abomination

[unknown]

I am affliction the cause of all that ails you
I am addiction that blinds and assails you
Through all confusion I am the chaos
I'm the the thing that makes you hurt laughing at your lossJust underneath your skin is evils origin
Come see the face of devastation
You are me, I am abominationI am the bleeding when you open up the vein
I am the overdose that rushes to your brain
I'm all you've come to loathe all you've known to hate
I am the hunter when you come to take the baitJust underneath your skin is evils origin
Come see the face of devastation
You are me, I am abominationI am Jehovah I am the virgin whore
I am the battlefield of pestilence and war
I am the monster that lurks beneath your bed
I'm all perversions trapped inside your head
