

# Of Mice And Men

## Megadeth

The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
Back when I was just seventeen  
I thought that I knew everything  
I could make it in this scene  
To be a risin' star that only gleamed  
When all the answers disagreed  
With the questions held for me  
I was legal now at twenty-one  
I knew the way the world should run  
My God, just look what I had done  
Simply drunk and havin' fun  
Looked for friends but I found none  
All alone at twenty-one  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
At twenty-five I was surprised  
That I was even half alive  
Somehow I managed to survive  
I felt my body's doin' time  
In my back a hundred knives  
All from my friends at twenty-five  
And now as Gabriel sounds my warning bell  
I'd buy your life if you'd sell  
And you would too if less compelled  
So live your life and live it well  
Theres not much left of me to tell  
I just got back up each time I fell  
The fire burns on  
And all that drives me on  
Till all is gone except

The simple plans of mice and men  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men  
The fire burns on  
And all that drives me on  
Till all is gone except  
The simple plans of mice and men
