

# Talking Hotel Arbat Blues

## Handsome Furs

We were standing in the center of the occupation  
Caught between the ground & the grey grey sky  
Baby got a little bit of bad information  
Baby take a number, baby wait in line I don't know but I've been told every little thing has been bought & sold  
I don't know but I've been told  
I don't know but I've been told every little thing has been bought & sold  
I don't know but I've been told There was a guy who came in from the cold but he's never gonna get past face  
control  
I don't know but I've been told Baby's out of step with the occupation  
No one's gonna notice if you disappear  
I've heard something about reclamation  
Do anything you want but just not here
