Never Goes

Dear Reader

it's not that she minded he'd had other lovers
until that day she never dreamt of their faces
she took it for granted that he'd kissed them on their ears
just why didn't he didn't he didn't love hercan you tell the moment a dream dies inside you
sudden and final and nobody warned you
now X marks a death-day in red on your calendar
it haunts to ensure that you always rememberyoure alone, youre alone, youre alone
youre alone, youre alone, youre alonehe stood in the doorway looking right through me
he lent in to kiss me, but i could sense it was a chore
he used to tell me that i was beautiful
but now he's not surethat's when i realised i'm all alone
that's when i realised that alone never goes
i'm alone, i'm alone, i'm alone
i'm alone, i'm alone, im alone
i'm alone, i'm alone, im alone
i'm alone, i'm alone, im alone
