

# Hook Line and Sinker

## One Step Away

I met her last Saturday  
brown haired and beautiful  
We were all alone  
it was so magicalWhere did this feeling come from  
it came out of nowhere  
Like a deer in the headlights  
I can't help but stare  
...and I'm lost without a prayer -- we can go anywhere  
line and sinker  
I'm going down fast  
Just come with me baby  
even if it won't lastI need you now  
and I can't get enough  
Just give me your hand  
you got the right touchIt's a beautiful night  
we can reach for the stars  
so come with me baby  
we've made it this farHer head is on my shoulder  
the sky is showing dawn  
Her eyes start to open  
to see that we're so far gone  
Where will this road take us  
let's just steal away  
cuz as long as I'm with you  
it's forever and a day  
...and I'm lost without a prayer -- we can go anywhere
