

Everything (Radio Edit)

Stereo Fuse

I remember you, do you remember me too?
Born on the 14th of July, the smell of roses made her cry
And though you're going far from home
Rest assured you're not alone'Cause I would give everything that I own
I'd give you my heart and this skin and these bones
The sun, the moon, the earth, the sky
I've never even stopped to wonder whyAnd I would do anything
And I would give everything
To be your everythingIt seems like such a long, long time
Since your body crossed my mind
But I think that you should know
It wasn't I who had to go'Cause I would give everything that I own
I'd give you my love and this heart made of stones
The sun, the moon, the earth, the sky
The motorcycle that I like to ride'Cause I would do anything
And I would give everything
To be your everythingBut if ever you should stray
Just sing along and I will play
But look into your hands
I'm slipping through them like a tiny grain of sandI remember you, do you remember me too?
Seems like such a long, long time
Since I held you near and called you mine'Cause I would give everything that I own
I'd give you my heart and this skin and these bones
The sun, the moon, the earth, the sky
Brand new car that you and I could driveI would do anything
And I would give everything
To be your everything
Everything
