

Not My Daddy (feat. Kelly Price)

Mint Condition

You're not my daddy
You're my man
I think it's time you understand
So just make me happy if you can, oh I'm not your mama
I'm your girl
And I am the lady in your world
And loving each other's how we work, oh Trust, without it there's no love
It's true, no matter what you try
Us, there can be no us
Unless we find the strength to fight, hum I spy, you see
You watch, I peak
So what are we doing with our love
It's not how it's s'pose to be You're not my daddy
You're my man
I think it's time you understand
So just make me happy if you can, oh I'm not your mama
I'm your girl
And I am the lady in your world
And loving each other's how we work, oh Sure, are we really sure?
Maybe we should close the door, oh
Storms, we're tryin' to stand the storms
We've been holdin' on too long I pray, you weep, you cry, I speak
See what are we doin' with our love
It's not how it's s'pose to be You're not my daddy
You're my man
I think it's time you understand
So just make me happy if you can, oh I'm not your mama
I'm your girl
I am the lady in your world
And loving each other's how we work, oh Oh, please come to me with sweet words
Like when we met
Oh, screams, your damn screams
Change the language that we talkin'
I just get to walkin', baby, baby You're not my daddy
You're my man
I think it's time you understand
So just make me happy if you can, oh I'm not your mama
I'm your girl
I am the lady in your world

And loving each other's how we work, oh You're my man
I think it's time you understand
So just make me happy if you can, oh I'm your girl
I am the lady in your world
Loving each other's how we work, oh You're my man
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my man
You're not my daddy, you're my man You're not my daddy, you're my man
You're not my daddy, you're my
