

# Mimi

## Urban Aliens

When I saw your eyes  
I saw you Mimi  
I was bringing us home  
And I did what I could

The babies were flaming  
I had to run them down  
But when I saw you Mimi  
I had to get into you

Your eyes on my soul  
You can turn lead into gold  
I know that I crossed the line  
Mimi I know you're a gold mine

I was so lazy  
All hands and thighs  
Those flaming babies  
Came down from the sky

We couldn't have saved them  
Oh Mimi don't cry  
But when I saw you leaving me through that front window  
My life flashed before my eyes
