

Write It In The Sky (Ken Loi Remix)

Kina Grannis

Pull close
Perfect darkness night
The sky was on fire
The wind held us tight
And you told me the words
you've been holding inside
Oh love write it in the sky
Oh love write it in the sky You took my hand
And we start a cry
You kissed all my tears
But my cheeks never dried
And I could not imagine a feeling so right
Oh love write it in the sky
Oh love write it in the sky Ten year waiting to realize
The one that I needed was right by my side
And I know that I've hurt you
And we've said goodbye
Oh love write it in the sky
Oh love write it in the sky Oh darling it's cold outside
Let's not talk of the memories we'd rather deny
But we'll carry them with us
And we'll never lie
Oh love write it in the sky
Oh love write it in the sky
