Deja

Second Class

we are running out of time there is no decent reason why cause on our own we can be strong and on our own we'll prove you wrong we cant just sit around while you decide you're not the one who can make up our minds cause on our own we can be strong and on our own we'll prove you wrong cause again and again we're messing up we're trying harder to disrupt your day by day and things you say because all we did was not fit in all we did was not fit in all we did was not fit in all we did was not fit in with you cause on our own we can be strong and on our own we'll prove you wrong cause again and again we're messing up we're trying harder to disrupt your day by day and things you say because we wont do just what you tell us to for no reason all
