

One

Hear'Say

Every time I get a little pressure from you
Stressin' 'bout the things that you want to do
Talkin' like we could've been, should've been
Here, there, everywhere
You gotta realize I'm the kinda girl
Who'd want to be alone in this crazy world
But I'm not a' looking for the kind of man
Who doesn't understand
'Cause all I need is somebody
Someone who can come and dance at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
'Cause all I need is somebody
Someone who'll be getting down at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
I'm not looking for the one
If you think I'm gonna get serious
I'm talkin' 'bout a ring for the two of us
Better give it up, don't be ridiculous
Cause - you've missed the bus
You gotta realize I'm not the kinda guy
Giving you my promises to qualify
Baby even though you've got it goin' on
Doesn't mean that you're the one
'Cause all I need is somebody
Someone who can come and dance at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
'Cause all I need is somebody
Someone who'll be getting down at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
Ooh... one, one
'Cause I'm not looking for the one
We got it going on...
Not looking for the one...
We got it going on...
Not looking for the one...

Looking for the one
We got it going on...
Not looking for the one...
Looking for the one...
We got it going on...
Not looking for the one...
'Cause all I need is somebody
Someone who can come and dance at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
'Cause all I need is somebody
Someone who'll be getting down at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
'Cause all I need is somebody
Someone who can come and dance at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
'Cause all I need is somebody
Someone who'll be getting down at my party
All I really want is someone who's got it
'Cause I'm not looking for the one
