Steve McQueen

Lambchop

And if I never live to see another day
Oh, I guess that have to be alright by me
How come we never say what it is that we want to say
Is this just another way to be meanMean, mean
Not Steve McQueen or free of worryAnd if you never have the need to look the other way
But how could this be good for me?
Let's hope we all prevail to love, take a pill or take a pause
But this is not at all what it seemsSeems, seems, seems, seems
Or take me seriousMake sure we never ever stand in each others way
When you got something that you got to say thats real
Look to each other thats a thing that we're gonna do
From now on thats what we're gonna do to you, for you
You, you, you
