

Better Than Yesterday

Hollysiz

I found the answer
It's finally back again
And today day day
I should say
I found the answer
It has been on my way way way
Now I should drive Nobody knows what's tomorrow'll be
but with you by my side
it will be better than yesterday life is running in circle
on??? a to z
Running has you you you after me
I look of the past I wanna start to???
You're the good cast
Nobody knows what's tomorrow'll be
but with you by my side
it will be better than yesterday Nobody knows what's tomorrow'll be
But with you by my side
It will be better than yesterday Change x4
Today day day
I found my way way way
You're the answer Change x4
Today day day
I found my way way way
You're the answer Nobody knows what's tomorrow'll be
But with you by my side
It will be better than yesterday
Nobody knows what's tomorrow'll be
But with you by my side
It will be better than yesterday Better than yesterday x3 Nobody knows what's tomorrow'll be
But with you by my side
It will be better than yesterday Better than yesterday x3
