

# Solo Discotheque (whiskey Bitness)

## Gym Class Heroes

When I close my eyes 'cause that's when she appears  
I grab her by the thighs and I pull her near  
But to my surprise, it is just what I fear  
'cause when I turn on the lights there's no one there  
I am by myself and I am dancing all alone  
I am by myself and I know that nobody's home  
I am by myself but I am dancing all alone  
I am by myself and I know that nobody's home  
There's no one there when I turn on the lights  
There's no one there when I turn on the lights  
And just like that she's right back  
She'll stay the night as long as I play the right track  
She likes the lights low  
And when she winds slow  
I'm buyin' what she's selling  
Ain't no telling where my mind goes

She leaves my mind blown like old speakers  
She always comes and goes but I never leave her  
She's like my favorite cut or replay  
She makes them paper cuts go away  
I hope she stays  
I am by myself and I am dancing all alone  
I am by myself and I know that nobody's home  
I am by myself but I am dancing all alone  
I am by myself and I know that nobody's home  
I am by myself and I am dancing all alone  
I am by myself and I know that nobody's home  
I am by myself but I am dancing all alone  
I am by myself and I know that nobody's home  
I am by myself and I am dancing all alone  
I am by myself and I know that nobody's home  
I am by myself but I am dancing all alone  
I am by myself and I know that nobody's home
