

Move Your Feet (feat. Amymarie Gaertner)

[Chase Johanson](#)

Moon, dancing underneath of the night light
Twisting and turning with the fire flies
Put everything out of your mindLife, shut it all away for a moment
Open up your soul and don't close it
Dance yourself away into the nightMove your feet to the beat of the music
Spin all around don't care if you lose it,
Dance alone it doesn't matter just do it
Move your feet to the beat of the musicSmile, smile by moving all around
Make yourself a canvas of the ground
And I bet that you that you'll feel just fineDream, let your head just slip into the night
Let the rhythm make you feel alright
You can feel the music deep insideMove your feet to the beat of the music
Spin all around, don't care if you lose it,
Dance alone it doesn't matter just do it
Move your feet to the beat of the musicYou will feel, what I feel
When you let yourself go
It will be surreal
Just trust me this I knowMove your feet to the beat of the music
Spin all around, don't care if you lose it,
Dance alone it doesn't matter just do it
Move your feet to the beat of the musicMove your feet to the beat of the music
Spin all around, don't care if you lose it,
Dance alone it doesn't matter just do it
Move your feet to the beat of the music
