

Last Summer

[audiostrobelight](#)

And if you leave:
You leave me with nothing
And if you stay, I'm afraid I've got nothing left to say
So long as I may for these answers,
Row me to the shore-
Blow me a kiss, but don't blow me away
Don't blow me away
And on the beach: where you held me last summer
We met with the stars and danced until we were swept away
And we swam like we knew towards the current
And I begged to your face like a door,
To be like the tide but not like the waves
No not like the waves
And I knew right then we were done
And I asked you with eyes like the sun have you even looked at...
