

It's You I Hold

Dear John

In the night
You are freezing
When the morning comes
You are boiling hot
I can help you
Fall asleep babe
If you guide me in my search of better luckAre we red?
Are we gold?
Are we dead?
Are we cold?
well i know babe
You've got your principles
I respect them
Be silent for a while
Oh and know babe
That I will always need you to surviveAre we red?
Are we gold?
Are we dead?
Are we cold?
People tried to shape my life
But in time i realized
I can make it on my own
It's you I hold
