

Make The World Go Round (feat. R. Kelly)

DJ Cassidy

[R. Kelly:]

Na na na na na na na

Oh ooh oh oh, oh yeah! [DJ Cassidy:]

Here we go! [Verse 1 R.Kelly:]

When I'm going through you seem to know just what to say

To turn it all around and put a smile right on my face

To me you are a blessing and I so appreciate

How you change negative to positive and brighten up my day

And whenever I get weakened, lose my will to carry on

I just look at you cause you give me the reason to be strong

If it wasn't for you, I just don't know where I would be

So, tonight I'm gonna celebrate your love for me

Cause... [Chorus - R.Kelly:]

It's people like you

That make the world go round (Oh, yes it is)

It's people like you (Oh, yeah)

That make the world go round (Make it go round and round and round) [Verse 2 - R.Kelly:]

Whenever I was cold, you just had to keep me warm

And you were my shelter in the middle of my storm

And whenever the mountains came crumbling down on me

Then you out of nowhere lift me up and set me free

And whenever I thought that I could not go anymore

Girl, you came into my life and you opened up more doors

And now I don't have to look no for other women when it comes to love

Cause girl, you are gift sent down to me from up above [Chorus - R.Kelly:]

It's people like you

That make the world go round (Hey! Ooh!)

It's people like you (It's people like you)

That make the world go round (Oh yes you do...)

(These days) [Hook - R.Kelly:]

It's so hard to find

Someone truly truly real

In a world so divided

Where love should not be based on color

Girl take my hand (Girl take my hand)

And tonight we gon' show the whole wide world just how to dance, oh! [Bridge - DJ Cassidy:]

A 1,2... a 1,2

Let it blow (Bloooooow)

You feel good, I feel good

So hot!
Now we're gonna step around the world tonight and step into the light
It goes a 1,2,3... Here we go!
Step step step to the side
Step to the left and step to the right
Step step step to the side
Step all night and step to the light
Step step step to the side
Step to the left and step to the right
Step step step to the side
Step all night and step to the light
Step step, round and round
We gon' step all night to the funky sound
Step step, round and round
We gon' step all night till the roof come down
Step step, round and round
We gon' step all night to the funky sound
Step step step round and round
We gon' step all night till the roof come down[Chorus - R.Kelly:]
It's people like you (That make..)
That make the world go round (Yeah, there's people like you...)
It's people like you (Oooh)
That make the world go round (Oh round, round and round we go)[Hook - R.Kelly:]
It's so hard to find
Someone truly truly real
In a world so divided
Where love should not be based on color
Girl take my hand (Oh girl just take my hand)
And tonight we gon' show the whole wide world just how to dance, oooooooh![R. Kelly & DJ Cassidy:]
