

Love Showed the Way

The Paradise Band

Love came down from heaven to earth
God in person walked among us
Who would hear and who would see
The things He did on earth would change eternity
No greater love was seen
When You gave Your life for me
Love revealed love
And hope revealed hope
Freedom came so we would know the way
Death was broken
When the tomb was opened
That all the world would know love
Love showed the way (ehhh ehthhhh eh)
You have shown me that love has
Given me life, given me hope
And I know there is nothing like it
The freedom I've found in You
