

Block Rockin' Beats

The Chemical Brothers

Back with another one of those block rockin' beats
Back with another one of those block rockin' beats
Back with another one of those block rockin' beats
Back with another one of those block rockin' beats
Back with another one of those block rockin' beats

Back with another one of those block rockin' beats

We are about to rock steady
We are about to rock steady

Back with another one of those block rockin' beats
Back with another one of those block rockin' beats
