## (Hed) P.E.

It's time we get it right  
Lace up the boots and get in line  
The uniform is not material  
But the guns and bullets are so real To the youth in the line of fire  
So real to the youth in the line of fire And while we wait in line  
For our service of slow suicide  
Our birth control is pesticide  
That reigns on the 18s of society All signed up for the line of fire We know our rights  
We know what's right  
In the face of intimidation  
We're reckless  
We're dangerous  
We're reckless  
We'll tear it down We're sick and tired of the status quo  
We're pissed off and we're ready to go Get reckless  
Dangerous  
Get reckless  
Mr. Curiosity  
Get reckless  
I'm furious  
Get reckless  
Mr. High Velocity White collar royalty will smile child psychology  
On every Sunday TV set  
From sea to shining sea  
Yeah Jesus loves you Stand in the line of fire  
Who will stand in the line of fire We know our rights  
We know what's right  
In the face of intimidation  
We're reckless  
We're dangerous  
We're reckless  
We'll tear it down We're sick and tired of the status quo  
We're pissed off and we're ready to go Get reckless  
Dangerous  
Get reckless  
Mr. Curiosity  
Get reckless  
I'm furious  
Get reckless

Mr. High Velocity This is a public service announcement

WITH GUITARS

Know your fucking rights The king and his court we're teeing off

While the working class children

Came home named and unnamed

The population started to turn

With the hoods and the gangsters leading the way

The consciousness had struck critical mass

And the cheshire liar became a relic of the past Rest in peace - liar - fucking vampire We know our rights

We know what's right

In the face of intimidation

We're reckless

We're dangerous

We're reckless

We'll tear it down We're sick and tired of the status quo

We're pissed off and we're ready to go Get reckless

Dangerous

Get reckless

Mr. Curiosity

Get reckless

I'm furious

Get reckless

Mr. High Velocity

Get reckless

Dangerous

Get reckless

Mr. Curiosity

Get reckless

I'm furious

Get reckless

Mr. High Velocity YEAH YOU DONT WANNA FUCK WITH ME!

NO FUCKING WAY!
