

Daylight Robbery

Imogen Heap

Don't mind me, just cruising by, by the girl with the balloon
Good, it looks like we're the only ones around
Caught on CC TV heading towards the city light
Winking diamonds at me, arms stretched out now Oh, oh it gets me every time
Oh, oh it gets me every time Happiness and silhouettes
Revolving in the deep water indigo it's high tide
Pleasure moment, thinking big, thinking positive
And itching to get on with it, it's all stops out Excess is the new moderation
Get dressed up to the power of ten
Raise glasses on repeat and again, again, again
Again, again, again, again, again Oh, oh it gets me every time
Oh, oh it gets me every time Oh, wade the sonic joy
Pleasure the wave and synchronize
Sway in the sonic joy Oh, oh it gets me every time
Oh, oh it gets me eve-eve-every time Every time, it gets me right here
Every time, it gets me right here Every time
