

Pretty Face

Morphine

Love's strange, bee sting, what a fool I've been
Serpentine, lives unwind, trees sing, flowers cry
A frontier town, carpet brown, picking gold, raining down
This time I do it now but I'll fast forward to a better spot now I can go back, later I remember the place
But it's not so easy to erase a pretty face
Erase a pretty face, a pretty face Hand on mind, all this time unraveling this ball of twine
Butterfly back, climb through paths, not too slow, not too fast
Perfect place, pretty face, nice place for a rattlesnake
Perfect place, out of face, a good day to make a mistake
Each time and I do it now, fast forward to a better spot Go back later, I remember the place
But it's not so easy to erase a pretty face
