Take Me Through to Your Side

Katharina Nuttall

take me throughout to your side
bring out of here
take me for a long ride,
we could go somewhere
full speed ahead
on a runway with no end
take me through to your side
take me out
the water glows from moonlight
sparkles in your hand
not just another dark night
we could go somewhere

would you dare to see me now (x2)
don't stop drive on
don't stop heart
would you dare to see me now

only the beginning
we don't stop till dawn
its cold so i give in
can you keep me warm
full speed ahead
on a runway with no end
take me through to your side
take me out
