

# Angel On My Bike

## The Wallflowers

She knows just what I like  
The Angel on my bike  
She found me down on a two ton anchor  
Tangled up in wire She always gets it right  
The Angel on my bike  
I could be killed if the train goes faster  
Well, Angel watch my life I can't handle a care  
I want, but I can't be there  
While Angel's a prayer It's 45 miles on that highway  
Angel double prayer  
I have to sleep with my eyes on the white lines  
Elvis need of repair And I only wanted to believe  
That Angel, it's me that you need  
And there's only, only one heart on that highway  
Angel double prayer I can't handle a care  
I want, but I can't be there  
While Angel's a prayer I can't handle a care  
I want, but I can't be there  
While Angel's a prayer Now it's hard time on these wheels  
These fairytales turn to rusted steel  
And it's gettin' hard now to believe  
She's seein' me, Angel please, tell me can't you see  
Angel it's only me, Angel it's only me Well, I can't take a care  
I want, but I can't be there  
While Angel's a prayer I can't handle a care  
Well, I want, but I can't be there  
While Angel's a prayer
