

# My Neighbors in Delray

Rod MacDonald

Â©2001 Rod MacDonald (Blue Flute Music/ASCAP)

My neighbors in Delray ate out on Federal Highway  
there's a waitress at Denny's who remembers  
they had loud conversations and hit on all the waitresses  
and they weren't very good tippers  
My neighbors in Delray drove to Miami one day  
and worked out on a flight simulator  
then my neighbors in Delray stole a plane bound for L.A.  
and flew it into the World Trade Center

My neighbors in Delray worked out at the gym every day  
rented a condo, studied to be pilots  
they had rental cars, cell phones, used the library computers in town  
struck out with girls in local nightspots  
but my neighbors in Delray hated the American Way  
and lived only to die for some heaven  
where virgins train to serve and Allah is observed  
gratefully awaiting to reward them

"Love thy neighbor," the Bible says  
"God is great," the prophets pray  
wouldn't I love to know what God will say  
to my neighbors in Delray.

My neighbors in Delray came from countries far away  
and lived here freely among us  
they studied all the ways of the good ol' USA  
thinking of ways to destroy us  
and my neighbors in Delray got on their knees and prayed  
for the strength to leave life behind them  
so my neighbors in Delray wouldn't be around to pay  
the price for all of their victims

"Love thy neighbor," the Bible says  
"God is great," the prophets pray  
wouldn't you love to know what God will say  
to my neighbors in Delray.

My neighbors in Delray well I really couldn't say

I would even recognize them  
walking thru the mall, or anywhere at all  
I know my other neighbors all despise them  
somewhere far away they don't care what the neighbors say  
and they would only criticize me  
but if my neighbors in Delray are in paradise today  
it would very much surprise me.

"Love thy neighbor," the Bible says  
"God is great," the prophets pray  
don't you really know what God will say  
to my neighbors in Delray.
