## Prodigy

If you believe the Western Sun  
is falling down on everyone  
If you're breaking free  
And the morning's come  
If you would know  
Your time has come.  
If you believe in the Western Sun  
is falling down on everyone  
And you feel it burn, don't try to run  
And you feel it burn, your time has come.  
And I feel it.  
I feel another energy  
and I feel power through it  
I feel another energy  
and I feel power through it  
You feel another energy  
and I feel power through it  
If you believe in the Western Sun  
is falling down on everyone  
If you're breaking free  
And the morning's come  
If you would know  
Your time has come.  
If you believe in the Western Sun  
is falling down on everyone  
And you feel it burn, don't try to run  
And you feel it burn, your time has come.  
And I feel it.  
You feel another energy  
And I feel power through it  
You feel another energy  
And I feel power through it  
You feel another energy  
And I feel power through it  
Umm Naman Narayanna  
Umm Naman Narayanna  
Umm Naman Narayanna...  
And I feel it.  
And I feel it.

And I feel it.  
I feel another energy.  
You feel another energy  
And I feel power through it  
You feel another energy  
And I feel power through it
