

# Unite

## Angel Dust

Don't speak...  
Of the silence that falls on the future  
I won't say - but I believe there is something in my mind  
It's hard to expect there will be no surprises  
Don't feel - there's a sign of what's coming - we divideKeep us together  
Don't silence our souls  
In this dread - ripped apart againYou know my aim is for you to be my last resort  
Don't heed the empty mindless call  
I don't feel hatred towards you  
This is my last remorse  
Here comes the ending  
Unite - in the mystic world  
Unite - in the mystic world  
Unite - and overcomeDon't say that the cries of tomorrow are silenced  
Don't think like we will be living in ecstasy[repeat bridge]  
[repeat chorus]  
[repeat bridge]Don't feel my agony now  
This is my last real hope  
Don't heed the empty mindless call  
I don't feel hatred towards you  
This is my last remorse  
Here comes the ending  
Unite - in the mystic world  
Unite - in the mystic world  
Unite and overcome
