

# Primitive Future

## Sepultura

I follow the steps front of me  
They are deep well-defined  
Show an undefined straight path  
What has gone through me will never return  
Future won't let me look back  
I just walk, I just walk  
Animals run by my side  
They communicate, each one in its own way  
But I can't understand  
I feel alone on this irrational planet  
To create or just observe  
Keep walking this desert made of ideas  
Primitive future  
My head is heavy but empty  
Everything around me is void without perspectives  
The night invades the sky that darkens the dry ground  
Making my shadow join the big stain that's forming  
Steps become slow and agonize  
I step on skulls of generations that have not formed  
I hear painful cries of wars that are to come  
To create everything again, from the beginning  
To teach new minds to awake a sleeping giant buried  
On the ashes of disgrace it's scornful the way I live  
I look well, I think I'm well that's all  
I follow the steps in front of me  
They are deep and well-defined  
They show an undefined but straight path  
What has gone through me will never return  
Primitive future
