

Even If Your Voice Shakes

The Romantic Era

Even if my voice shakes
Even when my body's broken down
I will get my words out
I will find the way to sway the crowd
Even when I'm ugly
And I've torn all my hair out
Hand in hand we will join the fallen
From the ground, we will tear this world apart
And we will light, the streets
And we will rule
March with my enemies
And we can't lose
So take my hand
Tonight's the night we're beautiful
Take my hand
Tonight's the night we rule the word
And we'll repaint the skyline as we shake up all their rules
And we're throwing out the guns and the bombs
I'm just waiting on you
Even if my voice shakes
You'll hear me roar and you'll see my crown
On the heads of our children
Their happy ending is in our hands now
We're storming at sunrise
I'll meet you in the streets with my hands out
We'll break free of their bullets
We are wild and our screams are loud
And we will light, the streets
And we will rule
March with my enemies
And we can't lose
So take my hand
Tonight's the night we're beautiful
Take my hand
Tonight's the night we rule the word
And we'll repaint the skyline as we shake up all their rules
And we're throwing out the guns and the bombs
I'm just waiting on you
We are young and free
We got air to move
So shake your voice with me
Tonight's the night yea
Tonight's the night we rule the world
So take my hand
Tonight's the night we're beautiful
Take my hand

Tonight's the night we rule the word
And we'll repaint the skyline as we shake up all their rules
And we're throwing out the guns and the bombs
I'm just waiting on you
