There Is a Mountain

Paul Enenche

There is a mountain

I have found a place
Where I can find my rest
Is the Holy presence of the lord
I have found a place
Where I can find my rest
Is the Holy presence of the
living God

There is a mountain
Where I can find rest
There is a mountain
That I can run to...
Is the Holy presence of the lord
There is a mountain
Where I can find rest
There is a mountain
That I can run to...
Is the Holy presence of the
living God

I have found a place
Where I can lift my hand
Is the Holy presence of the lord
I have found a place
Where I can lift my hand
Is the Holy presence of the
living God

I have found a place
Where I can lay my hand
Is the Holy presence of the lord
I have found a place
Where I can lay my hand
Is the Holy presence of the
living God
