Nearer Than Heaven

Delays

You are nearer than Heaven
I get the feeling I get nearer by the day
I've seen the people go forever descending
It's when we're all inside that summer's on the wayBullet took it easy, dollar lit the room
Monsters making the evening news
Packing up a round trip, I get in the wayNow I know that, you are nearer than Heaven
I get the feeling I get nearer by the day
I've seen the people go forever descending
It's when we're all inside that summer's on the wayWe could talk forever, nothing would get done
Stake your claim on the morning sun
I get in the wayNow I see that, you are clearer than Heaven
I get the feeling I get nearer by the day
I've seen the people go forever descending
It's when we're all inside that summer's on the wayYeah
Yeah
