

Night Of Your Life (feat. Jennifer Hudson)

David Guetta

Boy I see ya, looking at me
I feel you eyes on me, like you gotta have me
Watching every move, like it's for you
You can't help it, you're attracted like a magnet
My love ain't easy
You gon' have to put in some work
You can't buy me a drink, thinking I'mma fall for
your flirt
You gotta make it right
If you wanna go spend some time
You gotta raise the bar tonight

Love me, baby treat me right
Make it eternity and not only one night
If you love me til the end of time
Then I will promise you the night of your life

So now love me, baby treat me right
And we'll be riding it from morning til midnight
If you love me til the end of time
Then I will promise you the night of your life
Night of your life, life, life
Night of your life, life, life

I could have ya, if I wanted to
Down on one knee, and following me where the bells ringing
I could claim ya, be your savior
Wrap your heart inside of these songs and you'll never leave
I could have you hindsight, round my body all up on me
Boy you'll be stuck to me, if I wanted with no release
I'll have you begging, wishing now I give you a piece
Baby you'll never be the same

Love me, baby treat me right
Make it eternity and not only one night
If you love me til the end of time
Then I will promise you the night of your life

So now love me, baby treat me right
And we'll be riding it from morning til midnight

If you love me til the end of time
Then I will promise you the night of your life
Night of your life, life, life
Night of your life, life, life

Taller than the mountains, deeper than the sea
You're boiling hot for me, baby one hundred degrees
I want you to love me, like your favorite dream
Let's make tonight a reality

So now love me, baby treat me right
And we'll be riding it from morning til midnight
If you love me til the end of time
Then I will promise you the night of your life
Night of your life, life, life
Night of your life, life, life
Night of your life, life, life
