

The Way The World Turns

Sanctus Real

Empty moments when I feel hopeless
Have left me restless inside
Doubt and sadness have kept me in fragments
Longing for a better life Oh, it's the way the world turns, the way, the way And I feel the current pulling me down
Can't keep the world from turning around
So I keep on turning to You, I keep turning 'Cause You're the hope of a new sunrise
Breaking over our desperate lives
And I keep on turning to You, I keep turning to You I'm so distracted by senseless passions
Tempting my wandering eyes
But every pursuit brings me closer to the truth
That only You can satisfy When I feel the current pulling me down
Can't keep the world from turning around
Though I keep on turning to You, I keep turning 'Cause You're the hope of a new sunrise
Breaking over our desperate lives
And I keep on turning to You, I keep turning From where we're hurting
Keeps us turning to You, to You Oh, it's the way the world turns away
The world turns, oh and I keep on turning to You
Oh, it's the way the world turns away
The world turns, oh, and I keep on turning to You 'Cause You're the hope of a new sunrise
Breaking over our desperate lives
And I keep on turning, I keep turning to You Oh, it's the way the world turns away
The world turns, oh and I keep on turning to You
I keep turning to You, I keep turning to You
