# Girlie Girlie

## Reggae Beat

Young man, you too girlie girlie
You just flash it 'round the worldie
Young man, you too girlie girlie
You just flash it 'round the worldie
He has one up here, one down there
One in the city, one down the shore
One is a lawyer, one is a doctor
One of them works with a little contractor
One down East, one down West
He has one up North and two down South
And one sells pot
And she keeps on hanging out
Young man, you too girlie girlie
You just flash it 'round the worldie
Young man, you too girlie girlie
You just flash it 'round the worldie
He has one in school, one big fool fool
He has one every time I say she thinks she rules
One is a nurse, she says she come first
The other night them going out and pick her a new purse
One is a star, one works in a bar
She can smile when the two a-them spar
One gettie gettie, one frettie frettie
He won't drink no other milk but Betty
Too girlie girlie
You just flash it 'round the worldie
Young man, you too girlie girlie
You just flash it 'round the worldie

Young man, you too girlie girlie
You just flash it 'round the worldie
Young man, you too girlie girlie
You just flash it 'round the worldie
One in Canada, one in Uganda
One in America, one Cuba
One in Russia, one in China
Young man, you too girlie girlie
You just flash it 'round the worldie
Young man, you too girlie girlie

You just flash it 'round the worldie
A big fat one who's a go-go dancer
A little slim one who's a radio announcer
One highty highty, one flighty flighty
Before he grows old he wants one on the North Pole
One in a London one in Japan
One in Scotland, one in Finland
One in Taiwan, one in Iran
One in Syria, one Tanzania
One in LA, one in Australia
One in New York, one in Antigua
One Grenada, one in China, one in India
One Bolivia, one Tortuga
Young man, you too girlie girlie
You just flash it 'round the worldie
Young man, you too girlie girlie
You just flash it 'round the worldie
