Suffer

[New Years Day](#)

To adore is to grieve
To worship is to bleed
Find your way inside my heart
And bring all your pain to meThere's Hell in your eyes
So let your demons dance with mine
We'll kill each other some day
But now is not the timeSacrifice all that's left so
We'll give in till it hurtsI'd suffer for you, Would you suffer for me?
Feel our affliction set us free
The kind of hurt that we both need
I'd suffer for you, Would you suffer for me?
How deep, how far will you go?
Tell me cause I wanna know
I'd give you my life, all the air that I breathe
I'd suffer for you, Would you suffer for me?It's not real unless it hurts
Cause true love is a curse
Lets compare each others scars
To see who really had it worseI'll inflict myself upon you
Cause the pain means we're alive
We'll scratch our way through the dark
Cause to struggle's to surviveSacrifice all that's left so
So we'll give in till it hurtI'd suffer for you, Would you suffer for me?
Feel our affliction set us free
The kind of hurt that we both need
How deep, how far will you go?
Tell me cause I wanna know
I'd give you my life, all the air that I breathe
I'd suffer for you, Would you suffer for me?
Would you hurt for me?Would you bleed for me?
Would you die for me?
Suffer
SufferSuffer
Suffer
I'd suffer for you, Would you suffer for me?
Feel our affliction set us free
The kind of hurt that we both need
I'd suffer for you, Would you suffer for me?
How deep, how far will you go?
Tell me cause I wanna know

I'd give you my life, all the air that I breathe
I'd suffer for you, Would you suffer for me?
