Do You Believe In Love

David Hasselhoff

After we have listened to everything
There is left to say
Watching the intented realities
Slowly fade away
Why is all we desire taken from our hands
Every dream is drifting awayThere is understanding for everyone
Who has ears to hear
No more looking over your shoulder
For someone to appear
Maybe you should be looking right
Into these eyes
So say goodbye to someone else's liesI've got to know
Do you believe in love
All the things you search the world to find
But know nothing of
Through the sun
Through the fire and rain
Know there's one who won't
Desert you again
If you believe in loveSome days I get up in the morning and i
Wish I wasn't there
Life seems so incredibly lonely when
No one seems to care
But I've found somewhere within this
Heart a friend for life
To hold me close
Till all my fears subsideI've got to know
Do you believe in love and
All the things you search the world to find
But know nothing of
Through the sun
Through the fire and rain
Know there's one who'll never hurt you
There is one who won't desert you again
If you believe in loveDon't you go asking those questions anymore
Don't you go
Don't you go asking those questions anymore
The answer is waiting for youI've got to know
Do you believe in love

And all the things you search
The world to find
But know nothing of
Through the sun
Through the fire and rain
There is one who'll never hurt you
There is one who won't desert you again
If you believe... if you believe...
In love
