Don't Bother Me

The Damned

I say hello don't think that I don't know
You're listening to me
But please don't bother me
Don't bother meYou bought this thing so I would sing
About that awful nuclear thing
I hope won't bother me
Won't bother meYour rolling stones and pop star clones
Don't even want to hear their moans
I say don't bother me
Don't bother meThose men of steel I really feel
Are quite extremely unreal
I wish they'd all just fade awaySo here am I under the sky
Can I ask you without a lie to
Please don't bother me
Don't bother meI'm in a hole just like a mole
Don't give a toss lady in her mink stole
Don't bother me
Don't bother meThe people change, they rearrange but stay the same
It's awfully strange
But they don't bother me
Don't bother meUntil the day their troubles stray on to my patch
Like Tony Hatch's 'Crossroads' theme
Please go away
Go awayNo interesting
