Way to Go

Flesh for Lulu

Hot in my head, heard what you said
It's fresh in my mind all the time
Money no object for beautification
But lov's no good for motivation
Throw away that diamond ring
I only want to see the shape of thingsThat's the right way to goClinging to the surface
Of the planet in a silk blue dress
You always looked your best
Under that duress
Throw away those childish things
I only want to see the shape of thingsAnd that's the right way to go
That's the right way to go now
We may be taking different trails
We're talking different details
Let me know when your lucky ship sailsUnderneath this skin I own
There's someone I think you should know
Why don't you take it from me
That would be the way to goAnd that's the right way to go
That's the right way to go
That's the right way to go
That's the right way to go
