Party on the Moon

Bonnie Jets

Is anybody out there?
Is anybody out there?
Is anybody out there?
Is anybody out there?
Oh, it's all crazy Martians invading
We're on the move, whoa whoa
It's so astrologic
Meteors droppin', whoa yeah
It's like a rocket, rocket
You can't stop it, stop it once we blast of
We're on a lunar mission this isn't science fiction
Leave your troubles on earth, take my hand
We're gonna escape
We're defying gravity somewhere in the galaxy
There's a party on the moon and you're invited
Bring you're friends too, it's so exciting
We're defying gravity somewhere in the galaxy
There's a party on the moon and you're invited
Bring you're friends too, it's so exciting
Yeah, yeah, yeah, party on the moon
Is anybody out there?
Is anybody out there?
Oh, star chasing, thrusters a blazin'
We're on the move, whoa whoa
I see Milky Way hotties
So beam me up Scotty, whoa yeah
It's like a rocket, rocket
You can't stop it, stop it once we blast of
Houston we're having problems asd I know how to solve 'em
Just leave your troubles on earth, take my hand
We're getting away
We're defying gravity somewhere in the galaxy
There's a party on the moon and you're invited
Bring you're friends too, it's so exciting
We're defying gravity somewhere in the galaxy
There's a party on the moon and you're invited
Bring you're friends too, it's so exciting
Yeah, yeah, yeah, party on the moon
Intergalactic, whoa

Time is elastic and everyone knows it
When your world is static
Leave your troubles on earth, take my hand
We're gonna escape
We're defying gravity somewhere in the galaxy
There's a party on the moon and you're invited
Bring you're friends too, it's so exciting
We're defying gravity somewhere in the galaxy
There's a party on the moon and you're invited
Bring you're friends too, it's so exciting
Yeah, yeah, yeah, party on the moon
Singing with me yeah, yeah, yeah, party on the moon
Is anybody out there, anybody?
Is anybody out there?
Is anybody out there?
Anybody out there?
